What is PRORestroom ?

PRORestroom is a smart restroom management system designed for areas where hygiene is critical and manual control is challenging.
It enables high-quality operations with fewer staff — and full visibility.

🎯 Key Benefits:

- **Comprehensive Monitoring:** Tracks consumables like soap, bins, and paper levels in real time.
- **Proactive Cleaning Alerts:** Predicts dirtiness and notifies cleaning staff in advance.
- **Smart Task Assignment:** Automatically dispatches tasks to the nearest staff and measures completion time.
- **Staff Optimization:** Achieve more with fewer personnel through operational efficiency.
- **AI-Powered Analytics:** Generates insights from real data to detect and prevent issues early.
- **Customer Satisfaction:** Ensures clean, odor-free, fully stocked restroom experiences.
- **Waste Reduction:** Prevents overuse of supplies and reduces operating costs.
